

# Mapping the Billboard Song Trends: Analyzing Lyrics and Genres across Time

**Y5 Group:** Yi Chang, Ying Yang, Ruishi Yang,  
Yingtong Peng, Yitong Ouyang

# Introduction

- People in the US spend nearly 4 hours of music listening per day
- People tend to choose music that matches their current emotional state

- Gain a better understanding of the prevalent themes and emotions in music
- Better understand how the emotional content could impact music listeners
- Target specific audiences more effectively and build better music recommendation systems

# Data Collection

- Wikipedia: Billboard Year-End Hot 100 Chart
  - Title, Artist, Year

List of songs on *Billboard*'s 2011 Year-End Hot 100 chart<sup>[1][2]</sup>

No.	Title	Artist(s)
1	"Rolling in the Deep"	Adele
2	"Party Rock Anthem"	LMFAO featuring Lauren Bennett and GoonRock
3	"Firework"	Katy Perry
4	"E.T."	Katy Perry featuring Kanye West
5	"Give Me Everything"	Pitbull featuring Ne-Yo, Afrojack and Nayer
6	"Grenade"	Bruno Mars
7	"F**K You (Forget You)"	CeeLo Green
8	"Super Bass"	Nicki Minaj
9	"Moves like Jagger"	Maroon 5 featuring Christina Aguilera

Adele's "Rolling in the Deep" was the number 1 song of the year, topping the Hot 100 for 7 consecutive weeks.

- Musixmatch: <https://www.musixmatch.com>
  - Lyrics

The screenshot shows a web browser window with the URL [musixmatch.com](https://www.musixmatch.com) in the address bar. The main content area displays the lyrics of the song "Rolling in the Deep" by Adele. The lyrics are arranged in two columns:

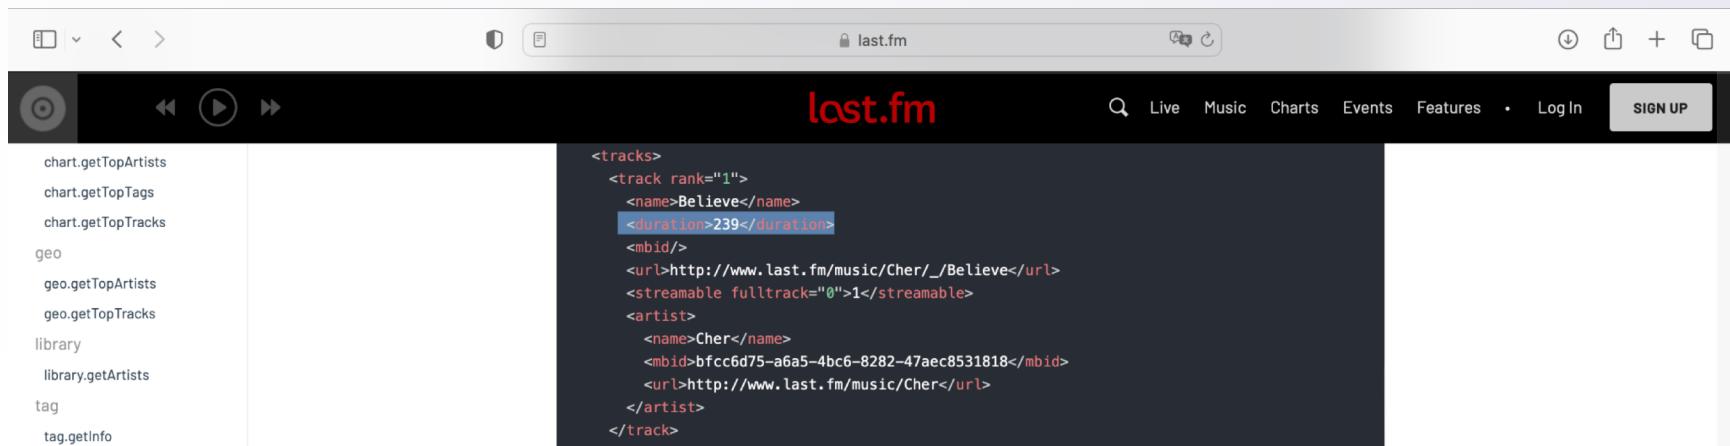

There's a fire starting in my heart  
Reaching a fever pitch, it's bringing me out the dark  
Finally I can see you crystal clear  
Go ahead and sell me out and I'll lay your ship bare

See how I'll leave with every piece of you  
Don't underestimate the things that I will do  
There's a fire starting in my heart  
Reaching a fever pitch and it's bringing me out the dark

To the right of the lyrics, there is a sidebar for "Podcasts Beta". It features a red button labeled "Discover Podcasts". Below the button, there is a thumbnail for a podcast episode featuring Adele, with the text "21 Jan 19th 2011" and the title "Rolling In The Deep".

# Research Questions

**01** What is the sentiment of lyrics by genre? Is there a trend through the past 20 years?

**02** How has the use of positive and negative words in lyrics evolved across different music genres during the selected two periods?

**03** What topics do the lyrics mainly present?

**04** Did the technology, society, or the public affect the change of sentiment or genres?

**05** What's the similarity between the genres? How is it changing through the 20 years?

01

# Sentiment Analysis

What is the sentiment of lyrics by genre?

Is there a trend through the past 20 years?

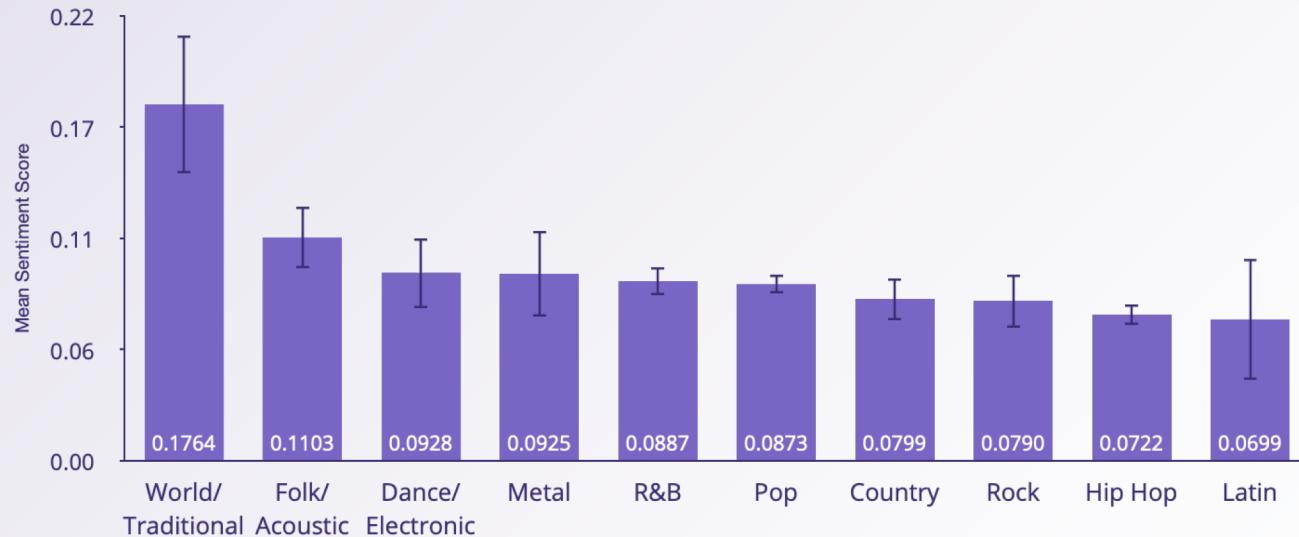

## RQ1: What is the sentiment of lyrics by genre? Is there a trend through the past 20 years?

- Model used: TextBlob
- Sentiment score range: -0.7 ~ 0.764
- Mean sentiment score for all 2000 songs: 0.0824

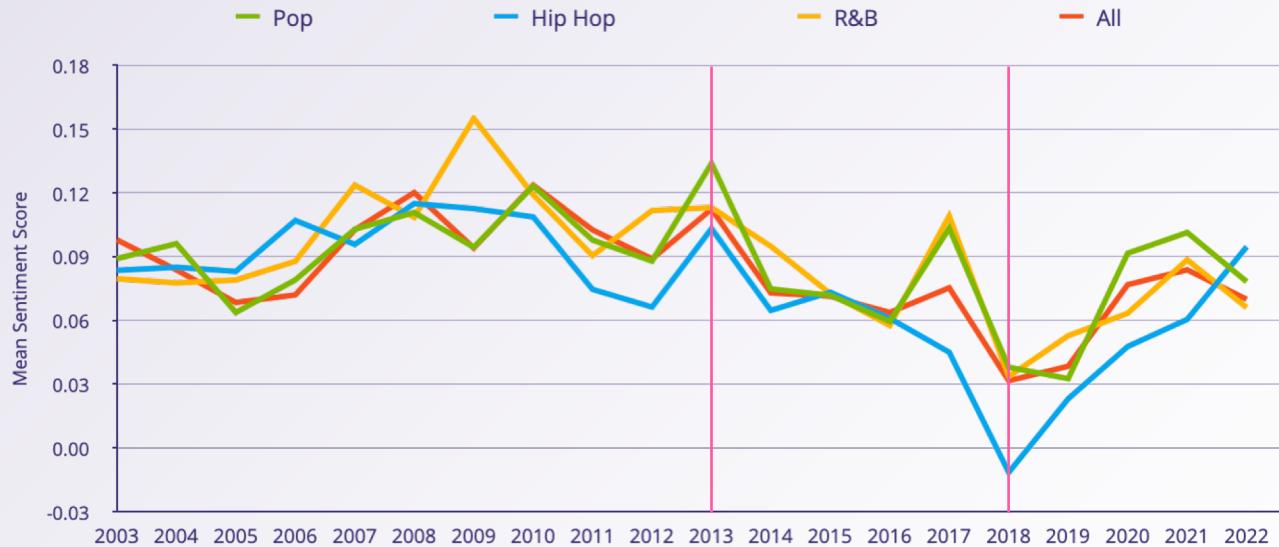

## Mean Sentiment Score of Lyrics by Genre

- there's no huge difference between most genres
- World/Traditional has the highest score
- Latin has the lowest score

\*Genre with too less songs were not considered

## Mean Sentiment Score for Top 3 Genres

- Every genre has an increase in 2013
- Significant drop for every genre in 2018
- 2010 has the highest overall score
- Hip Hop is rather undulate compared with the others

02

## Sentiment Analysis

How has the use of positive and negative words in lyrics evolved across different music genres during the selected two periods?

## RQ2: How has the use of positive and negative words in lyrics evolved across different music genres during the selected two periods?

- Two time periods were chosen to analyze
  - 2013
  - 2018
- Model used: VADER
- Generate the word clouds for each genre in this two specific years

# Word Clouds for Pop

# Similarity

- Positivity and Happiness
    - love, heart, best, fun, free
  - Anger and Negativity
    - fuck, shit, die, bad, bitch, hate

# Difference

- Wealth (2018)
    - Rich

## Positive Words from 2013

## Negative Words from 2013

## Positive Words from 2018

## Negative Words from 2018

# Word Clouds for R&B

## Difference

- Victory (2013)
  - win, wining, amazing
- Love (2018)
  - love, lover, lovers

Positive Words from 2013

Positive Words from 2018

Negative Words from 2013

Negative Words from 2018

# Word Clouds for Hip Hop

# Difference

- Happier (2013)
    - bigger fun, happy, brightest
  - Empowerment/Heroism (2018)
    - hero, super, celebrate

## Positive Words from 2013

## Positive Words from 2018

## Negative Words from 2013

## Negative Words from 2018

## Findings for Word Choice from Top 3 Genres of 2013 and 2018

- Positive and negative words across genres and selected periods are quite similar
- "love" and "heart" are the two most common positive words
- "fuck" and "shit" are the two most common negative words
- Year comparison (Pattern)
  - More variation in positive words between 2013 and 2018 than negative words

03

# Topic Modeling

What topics do the lyrics mainly present?

## RQ3: What topics do the lyrics mainly present?

- Model used: LDA Topic Modeling
  - Get the top words of every year by genre
- Summarization tool: ChatGPT
  - Abstract topics from the top words

# Topics for Pop Songs between 2013 and 2018

## Event Correlation

Did the technology, society, or the public affect the change of sentiment or genres?

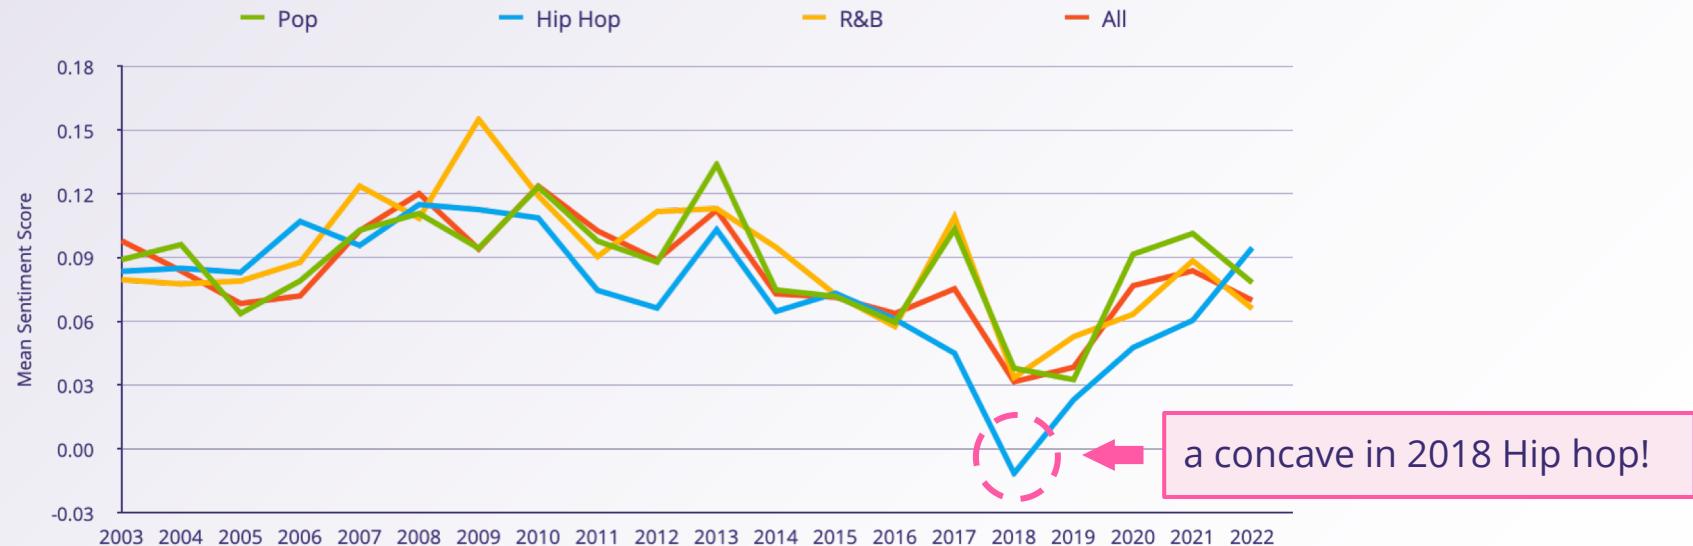

# Technology: Impact of Streaming Platforms on Song Length

- With the arising of streaming platform such as Spotify, the length of songs shortened significantly

# Culture Impact on Hip hop Songs

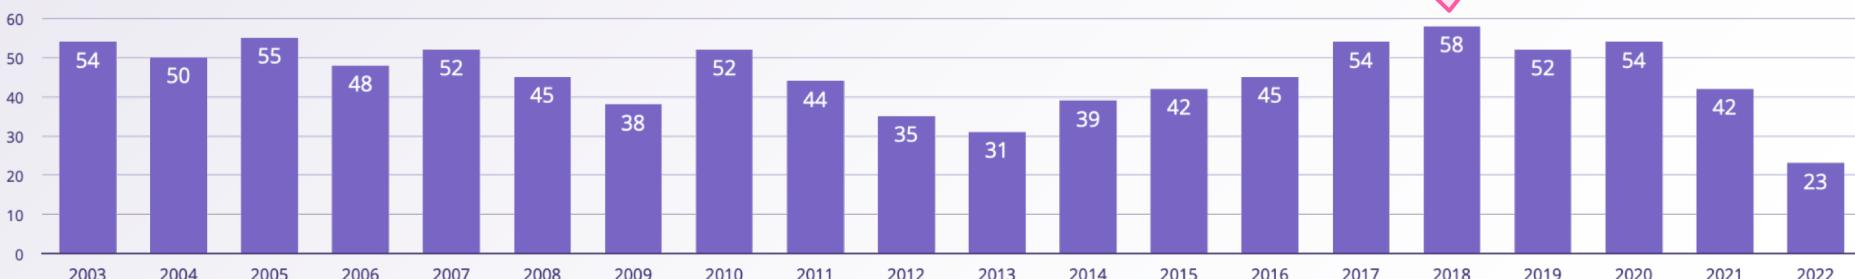

# Cultural Impact on Hip hop Songs

But, is the concave caused by sample error?

- In common sense, Hip hop songs:
  - negative
  - underground in the past
- So, not enough sample in the early years?
  - Cannot indicate the negative instinct?

Slightly more Hip hop songs in 2018

Number of Hip Hop Songs

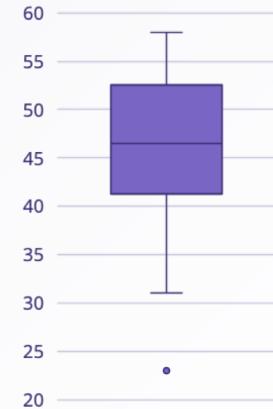

# Cultural Impact on Hip hop Songs

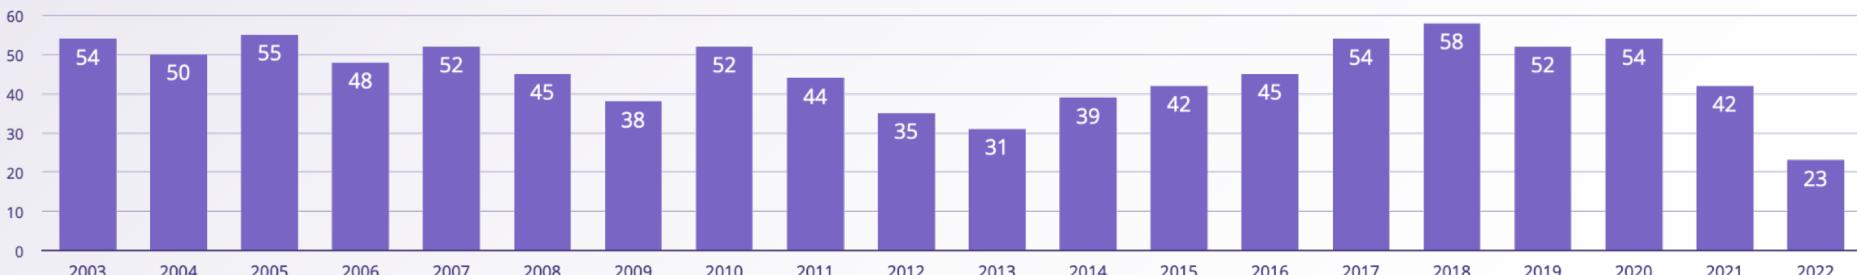

Not because of the sample error!

- Standard deviation and mean indicate a moderate variance

Mean	Variance	Standard Deviation
45.65	82.55	9.08

Number of Hip Hop Songs

# Arising of Emo Rap

- Only in 2017, 2018, and 2019 contains **emo rap**
- Particular singers: **XXXTentacion, Lil Pump, 6ix9ine**
- Lil Peep died in 2017, XXXTentacion died in 2018

Year	Title	Artist(s)	Sub-genres
2017	Look at Me!	XXXTentacion	emo rap
2018	Sad!	XXXTentacion	emo rap
2018	Moonlight	XXXTentacion	emo rap
2018	Gucci Gang	Lil Pump	emo rap
2018	Gummo	6ix9ine	emo rap
2018	Fefe	6ix9ine ft. Nicki Minaj & Murda Beatz	emo rap
2019	Swervin	A Boogie wit da Hoodie ft. 6ix9ine	emo rap

# Reasons Behind the Change of Hip hop Songs

- Gen Z led an arising of emo rap
- Singers: XXXTentacion, Lil Pump, 6ix9ine

# Network Analysis

What's the genre similarity in artists?

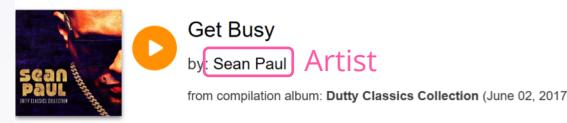

How is it changing throughout the 20 years?

# Genres' artist-overlap from 2003 to 2022

- Nodes: Genres
- Edge weights: Count of overlap artists

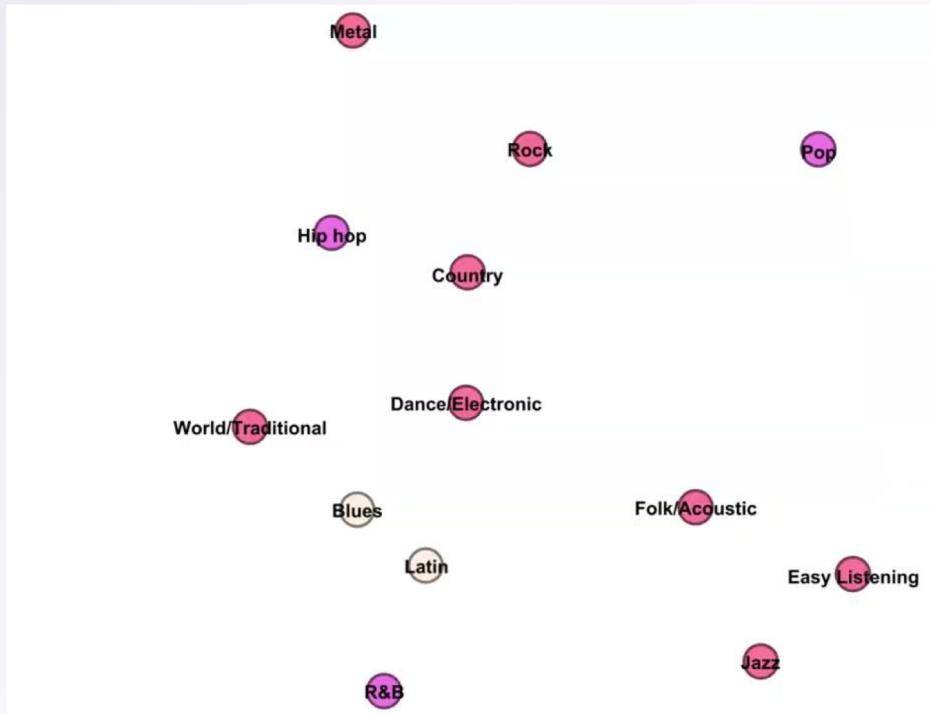

Find Similar In Playlists

Genres on Spotify Parent Genres: Hip Hop, Pop

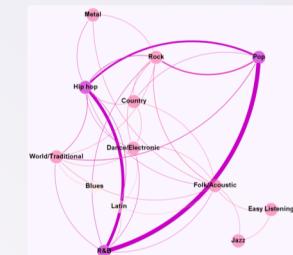

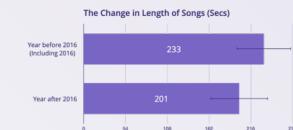

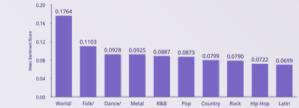

pop rap dancehall dance pop

# Changes of Genres Network from 2003 to 2022

# Summary

- Notable decrease in sentiment score in 2018
- Positive and negative words across genres and selected periods share many similarities, but positive words exhibit greater variation than negative words
- Genres are gradually fusing through the years, especially Hip Pop, Pop, and R&B
- Social issues (such as the COVID-19) are correlated with not only the sentiment of genres but also their fusion trend
